

How to Set Up Your IMAP Email Address in Apple Mail for iOS *(iOS version: 26.3)*

Setup Apple Mail for iOS for the first time

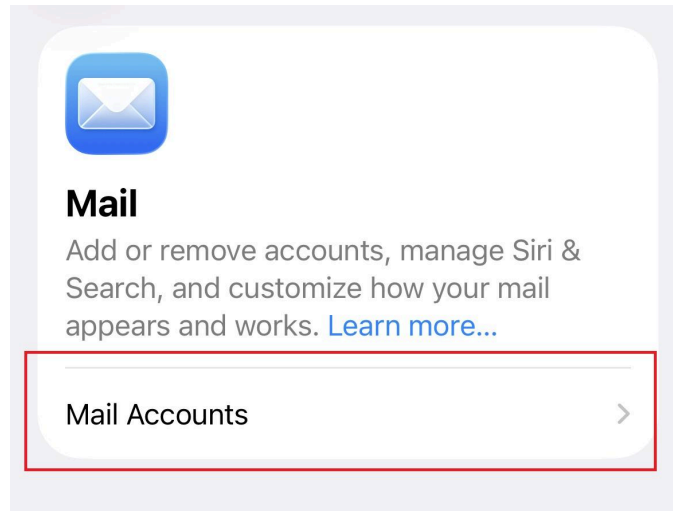

1. Go to “Settings” on your device and tap “Apps”.

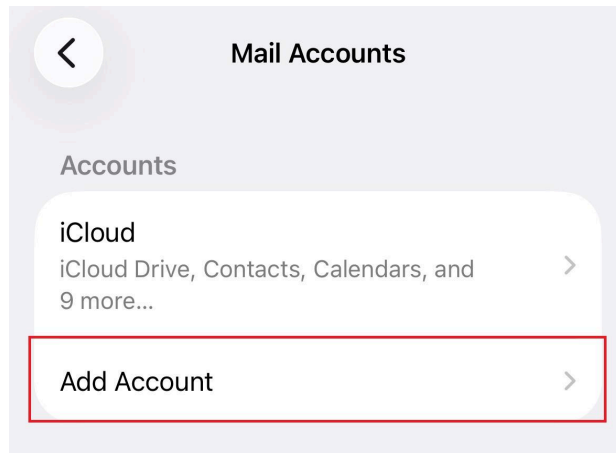

2. Tap “Mail”.

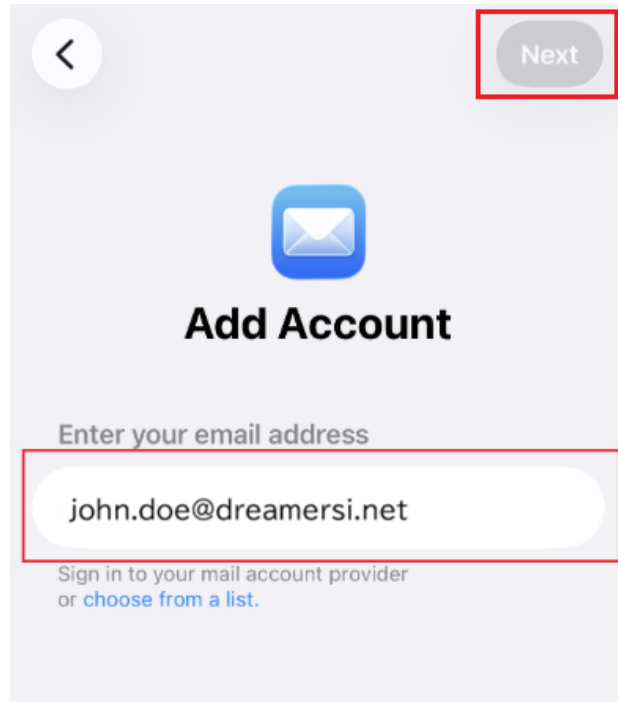

3. Tap “Mail Accounts”.

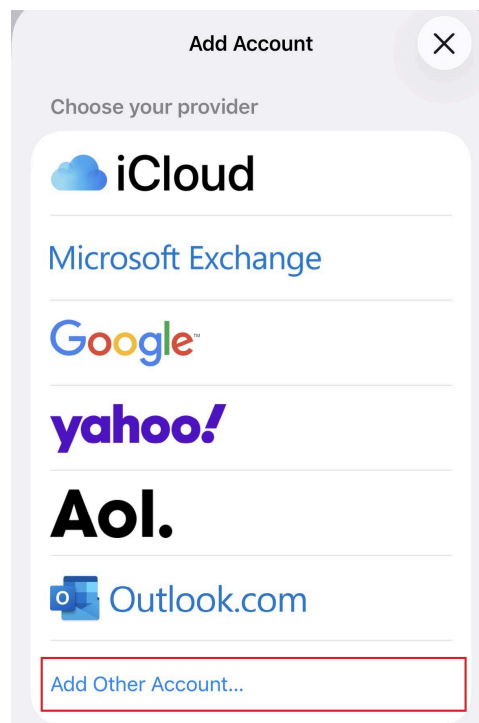

4. Tap "Add Account".

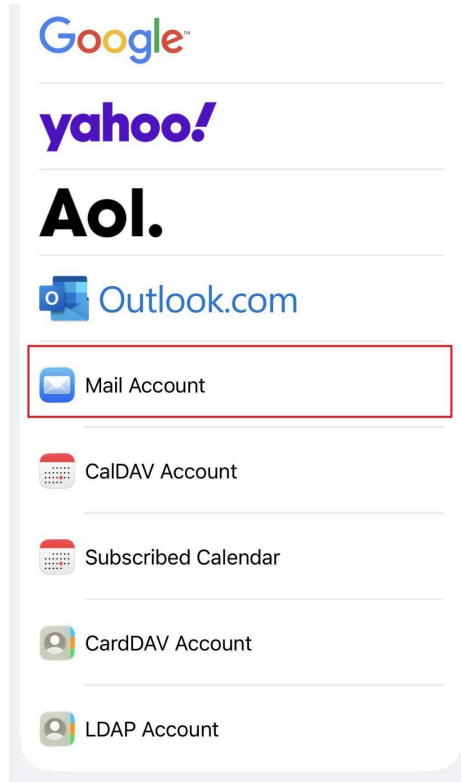

5. Enter your email address and tap "Next". (e.g., john.doe@dreamersi.net)

6. Tap "Add Other Account" from the provider list.

7. Tap "Mail Account" from the provider list.

8. Enter the following information and tap “Next”.

A screenshot of the 'New Account' form. The form has a title bar with three buttons: 'Cancel', 'New Account', and 'Next'. The 'Next' button is highlighted with a red box. Below the title bar are four input fields: 'Name' with the value 'John Doe', 'Email' with the value 'john.doe@dreamersi.net', 'Password' with five black dots, and 'Description' with the value 'Work'.

- **Name:** Your name (e.g., John Doe)
- **Email:** Your email address (e.g., john.doe@dreamersi.net)
- **Password:** Your email account password
- **Description:** Display name for this account (e.g., Work)

9. Make sure “IMAP” is selected and enter the required information, and then tap “Next”.

Cancel New Account Next

IMAP POP

Name John Doe

Email john.doe@dreamersi.net

Description Work

Incoming Mail Server

Host Name imap.dreamersi.net

User Name john.doe@dreamersi.net

Password ●●●●●●

Outgoing Mail Server

Host Name smtp.dreamersi.net

User Name john.doe@dreamersi.net

Password ●●●●●●

Incoming Mail Server

- **Host Name:** imap.dreamersi.net
- **User Name:** Your email address (e.g., john.doe@dreamersi.net)
- **Password:** Your email address password

Outgoing Mail Server (Username and Password are **required** in this step)

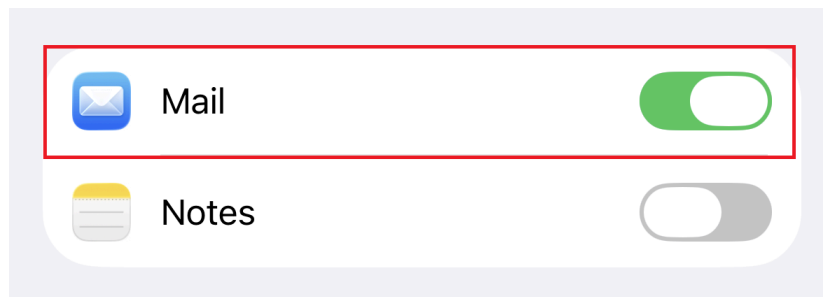

- **Host Name:** smtp.dreamersi.net
- **Username:** Your email address (e.g., john.doe@dreamersi.net)

- **Password:** Your email address password

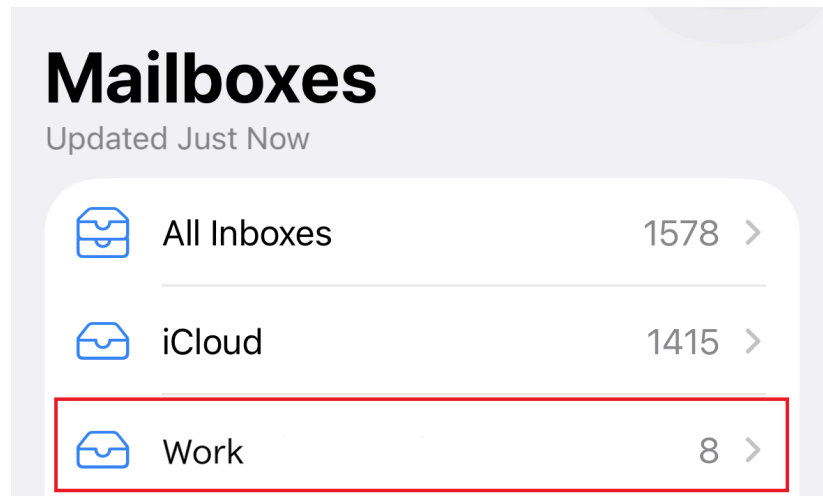

Notes

- The **Host Name** must be entered exactly as shown above. They **cannot be changed**.
- If you see an error such as “Cannot Connect Using SSL,” please check for typos or extra spaces in your host name, username, or password.
- The Name, Email, and Description fields at the top of the page will automatically carry over from the settings in step 8, so **no changes are necessary**.

10. Make sure the toggle for Mail is enabled, and Tap “Save”.

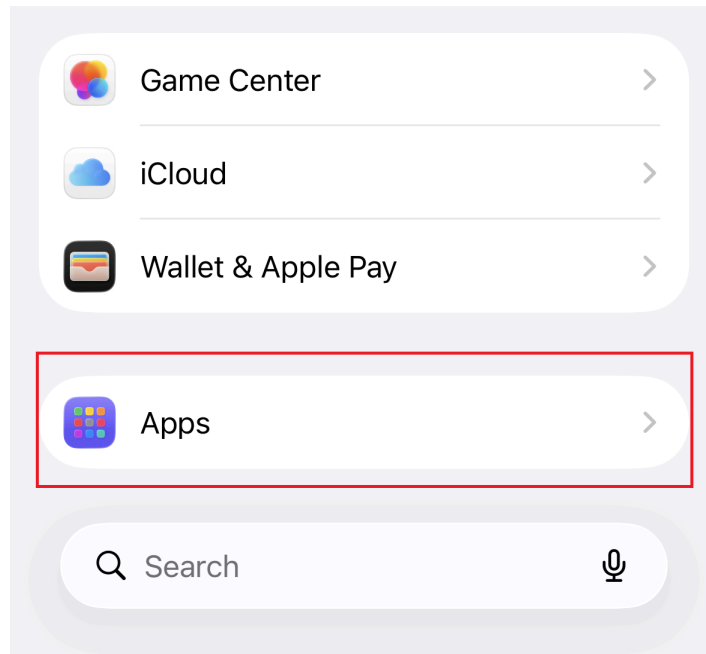

11. You can now see your mailbox in the Mail app, with the name from the Description field.

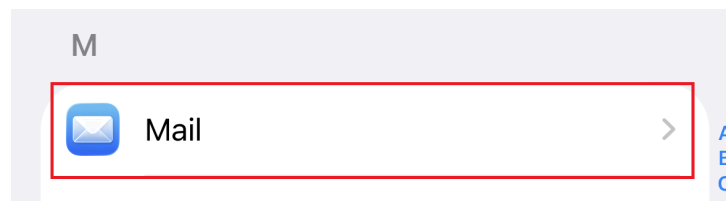

How to Delete the Account You Set Up

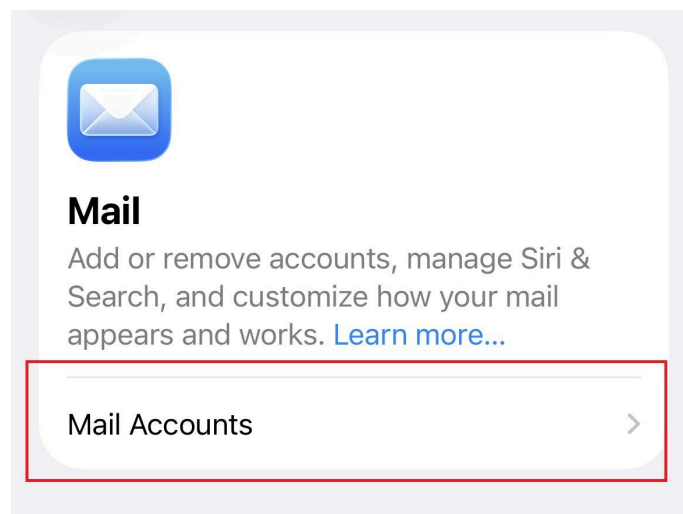

1. Go to “Settings” on your device and tap “Apps”.

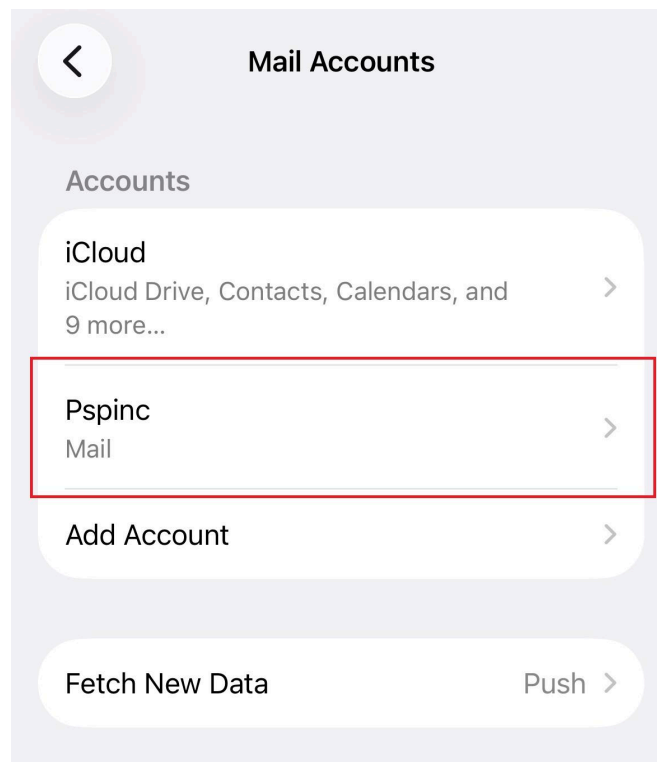

2. Tap “Mail”.

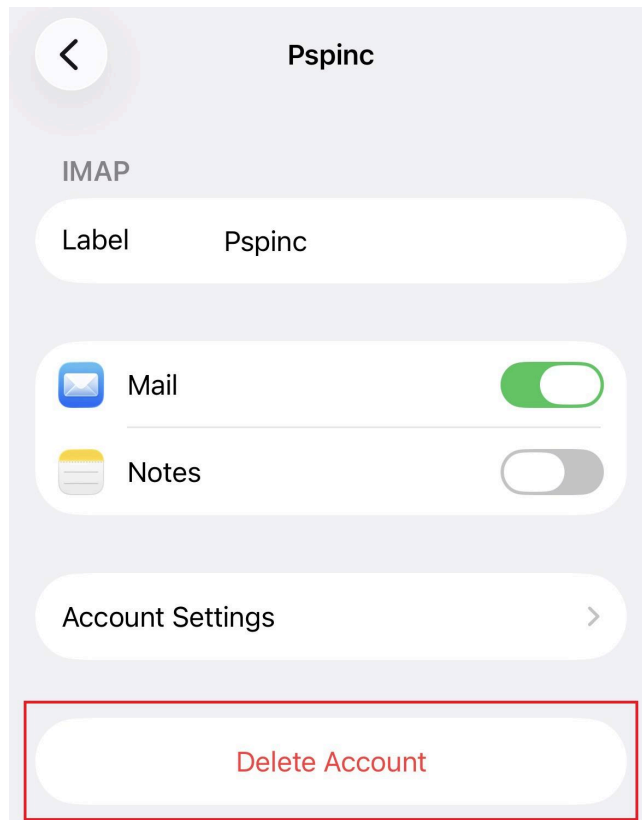

3. Tap “Mail Accounts”.

4. Tap the Mail Account you want to delete.

5. Tap "Delete Account" at the bottom.

6. Tap “Delete Account” in the confirmation pop-up.
